[I] Main Idea :

Scale Your Scala Applications with Kubernetes - > Next Generation Space + Medicine Related R&D.

We are TESTING the above mentioned idea/s → Using Scala & its related Tools.

Because we have some interests here we are not showing any details. However, I would like to inspire others with my ideas and approaches hence, this short notes.

Thanks for understanding - Dr.Nirmal.

[II] Useful Reference/s :

[a] An Insight into HOL-Isabelle/Coq Theorem Provers based Design of Algorithms Using
[Minsky Machines+Scala NLP/Scala/Akka/JikesRVM-Research Virtual Machine/JVM/LLVM]
in the Context of Electronic Health Record [EHR] Software R&D – A Simple Suggestion.

[III] Conclusion/s : One of the pioneering R&D Efforts in Space Industry. Non-Profit R&D.
Inspiring Others is ALWAYS good.

[THE END]
