[I] Main Idea + Inspiration + Introduction :

Exploring Shannon and Renyi Entropy of Wavelets Using Rust Programming Language based Machine Learning Apps -> ref[a].

[II] R&D Informatics Framework Using RUST + its Related Tools :

Fine Tune our Algorithms presented in ref[f] -> derive your own R&D Informatics Framework/s.

Step by Step approach is mentioned in our Short Technical Communication on github.Keep hacking the technical frontiers of IoT Systems.

Thanks for understanding - Dr.Nirmal.

[IV] Acknowledgment/s :

Sincere Thanks to all WHO made this happen in my LIFE.Non-Profit R&D.Inspire Others Always.

[V] Conclusion/s With Future Perspectives :

One of the promising R&D Efforts in this highly challenging domain w.r.t IoT Informatics Systems.

[THE END]
